Oral Examination/Seminar

☐ You will need to contact a faculty member outside of the department to be the chair of your committee. If you have no idea who to contact you might want to ask your advisor or committee members if they know of someone you could ask.

☐ In addition to your committee members you will need to chose two additional faculty members (they can be from our department) – the committee will then consist of 6 people.

☐ When you find a day and time that is convenient for all committee members, ask the department staff to assist you in finding a room.

☐ If you will need a projector and/or laptop be sure to reserve them with one of the staff.

☐ Two weeks prior: distribute thesis to the members of the committee.

The seminar is considered a report to the Department on the research accomplished by the student. The oral examination should be at least one hour but normally not more than two hours. The examination should be primarily on the thesis and on its implications in related fields.

The following need to be filled out and/or filed with the graduate school. (Please make sure that the department office gets a copy of all forms for your file in our office)
