

Jerry Goodisman  
Publications List, 2002 – present

155. J. M. Sullivan, **J. Goodisman** & J. C. Dabrowiak, **Binding to the Packaging Region of Human Immunodeficiency Virus Type-1.** *Bioorganic & Medicinal Chem. Letters* (2002) **12**(4) 615-618.

P. D. Sadowitz, B. A. Hubbard, J. C. Dabrowiak, **J. Goodisman**, K. A. Tacka, M. K. Aktas, M. J. Cunningham, R. L. Dubowy & A.-K. Souid, **Kinetics of Cisplatin Binding to Cellular DNA and Modulations by Thiol-Blocking Agents and Thiol Drugs.** *Drug Metabolism and Disposition* (2002) **30**(2) 183-190.

M. P. McPike, **J. Goodisman** & J. C. Dabrowiak, **Footprinting and Circular Dichroism Studies on Paromomycin Binding to the Packaging Region of Human Immunodeficiency Virus Type-1.** *Bioorganic & Medicinal Chem.* (2002) **10** 3663-3672.

M. P. McPike, J. M. Sullivan, **J. Goodisman** & J. C. Dabrowiak, **Footprinting, Circular Dichroism and UV Melting Studies on Neomycin B Binding to the Packaging Region of Human Immunodeficiency Virus Type-1.** *Nucleic Acids Research* (2002) **30**(13) 2825-2831.

K. A. Tacka, J. C. Dabrowiak, **J. Goodisman** & A.-K. Souid, **Kinetic Studies of the Reactions of 4-Hydroperoxycyclophosphamide and Acrolein with Glutathione, Mesna and WR-1065.** *Drug Metabolism and Disposition* **30**(8) 875-882 (2002).

160. J. C. Dabrowiak, **J. Goodisman** & A.-K. Souid, **Kinetic Study of the Reaction of Cisplatin with Thiols.** *Drug Metabolism and Disposition* **30**(12) 1378-1384 (2002).

161. D. Hagrman, **J. Goodisman** & A.-K. Souid, **Kinetic Study on the Reactions of Platinum Drugs with Glutathione.** *J. Pharmacol. and Experimental Therapeutics* **308**(2) 658-666 (2004).

162. D. Hagrman, **J. Goodisman**, J. C. Dabrowiak & A.-K. Souid, **Kinetic Study on the Reaction of Cisplatin with Metallothionein.** *Drug Metabolism and Disposition* **31**(7) 1-8 (2003).

163. M. P. McPike, **J. Goodisman** & J. C. Dabrowiak, **Specificity of Neomycin Analogues Bound to the Packaging Region on Human Immunodeficiency Virus Type-1 RNA.** *Bioorganic and Medicinal Chem.* **12**, 1835-1843 (2004).

164. D. Hagrman, J. Goodisman, & A.-K. Souid, **Kinetic Study on the Reactions of Platinum Drugs with Glutathione,** *J. Pharm. And Experim. Therapeut.* **308**, 658-666 (2004).

165. K. D. Finkelstein, **J. Goodisman** & L. Pollack, **Use of Anomalous Scattering in SAXS Measurements.** *CHESS News Magazine (Cornell High Energy Synchrotron Source)* **2004**, 51-54 (2004).
166. J. C. Dabrowiak, K. A. Tacka, **J. Goodisman** & A.-K. Souid, **Experimental and Theoretical Studies on the Pharmacodynamics of Cisplatin in Jurkat Cells,** *Abstracts of 228<sup>th</sup> National Meeting, American Chemical Society* 2004-661846 (2004).
167. K. A. Tacka, J. C. Dabrowiak, **J. Goodisman**, H. S. Penefsky & A.-K. Souid, **Effects of Cisplatin on Mitochondrial Function of Jurkat Cells,** *Chem. Research in Toxicology* **17**(8) 1102-1111 (2004).
168. K. A. Tacka, D. Szalda, A.-K. Souid & **J. Goodisman.** **Experimental and Theoretical Studies on the Pharmacodynamics of Cisplatin in Jurkat Cells.** *Chem. Research in Toxicology* **17**, 1434-1444 (2004).
169. H. Brumberger, D. Hagrman, **J. Goodisman** & K. D. Finkelstein, ***In situ* Anomalous Small-Angle X-ray Scattering from Metal Particles in Supported-Metal Catalysts. I. Theory,** *J. Applied Crystallography* **38** 147-151 (2005).
170. H. Brumberger, D. Hagrman, **J. Goodisman** & K. D. Finkelstein, ***In situ* Anomalous Small-Angle X-ray Scattering from Metal Particles in Supported-Metal Catalysts. II. Results,** *J. Applied Crystallography* **38** 324-332 (2005).
171. C. R. Centerwall, **J. Goodisman**, D. J. Kerwood & J. C. Dabrowiak, **Cisplatin Carbonato Complexes. Implications for Uptake and Toxicity,** *J. Amer. Chem. Soc.* **127**(37) 12768-12769 (2005).
172. **J. Goodisman** & A.-K. Souid, **Constancy in Integrated Cisplatin Plasma Concentrations Among Pediatric Patients,** *J. Clinical Pharmacol.* **46**(4) 443-448 (2006).
173. A. Binter, **J. Goodisman** & J. C. Dabrowiak, **Formation of Monofunctional Cisplatin-DNA Adducts in Carbonate Buffer,** *J. Inorganic Biochem.* **100**(7) 1219-1224 (2006).
174. **J. Goodisman**, D. Hagrman, K. A. Tacka & A.-K. Souid, **Analysis of Cytotoxicities of Platinum Compounds,** *Cancer Chemotherapy and Pharmacology* **57**(2) 257-267 (2006).
175. A. J. DiPasqua, **J. Goodisman**, D. J. Kerwood, B. Toms, R. L. Dubowy & J. C. Dabrowiak, **Activation of Carboplatin by Carbonate,** *Chem. Research in Toxicology* **19**(1) 139-149 (2006).

176. C. R. Centerwall, K. A. Tacka, , D. J. Kerwood, **J. Goodisman** , B. B. Toms, R. J. Dubowy & J. C. Dabrowiak, **Modification and Uptake of a Cisplatin Carbonato Complex by Jurkat Cells**, *Mol. Pharmacol.* **70**(1) 348-355 (2006).
177. **J. Goodisman** & J. Chaiken, **Scaling and the Smoluchowski Equation**, *J. Chem. Phys.* **125**(7) 074304/1-074304/7 (2006).
178. J. Chaiken, **J. Goodisman**, O. Kornilov & J. P. Toennies, **Application of Scaling and Kinetic Equations to Helium Cluster Size Distributions: Homogeneous Nucleation of a Nearly Ideal Gas**, *J. Chem. Phys.* . **125**(7) 074305/1-074304/8 (2006).
179. Z. Tao, H. G. Withers, H. S. Penefsky, **J. Goodisman** & A.-K. Souid, **Inhibition of Cellular Respiration by Doxorubicin**, *Chem. Research in Toxicology* **19**(8) 1051-1058 (2006).
180. Z. Tao, **J. Goodisman** & A-K. Souid, **Dactinomycin Impairs Cellular Respiration and Reduces Accompanying ATP Formation**, *Molecular Pharmaceutics* **3**(6) 762-772 (2006).
181. Dabrowiak, James C.; Centerwall, Corey R.; Di Pasqua, Anthony; Goodisman, Jerry; Dubowy, Ronald L.; Toms, Bonnie B. **Role of carbonate in the mechanism of action of platinum anticancer drugs.** Abstracts of Papers, 233rd ACS National Meeting, Chicago, IL, United States, March 25-29, 2007 (2007),
182. Z. Tao, **J. Goodisman**, H. S. Penefsky & A.-K. Souid, **Caspase Activation by Cytotoxic Drugs: the Caspase Storm**, *Molecular Pharmaceutics*, in press (2007)
183. A. J. DiPasqua, **J. Goodisman**, D. J. Kerwood, B. B. Toms, R. L. Dubowy & J. C. Dabrowiak, **Role of Carbonate in the Cytotoxicity of Activated Carboplatin**, *J. Medicinal Chem.*, in press (2007)
183. Z. Tao, Y. Zhang, M. P. Morrow, H. S. Penefsky, **J. Goodisman** & A.-K. Souid, **Oxygen Measurement by Phosphorescence: Theory and Experiment**, in preparation
