

Luk Laboratory: Open positions for undergraduate researchers

The Luk Group from the Department of Chemistry is seeking for highly motivated undergraduates to work with an interdisciplinary-oriented team of researchers. This project is supported by an NSF grant to support undergraduate students in research. Two positions are open to full-time undergraduates registered for the Fall 2009 semester with good academic standing.

Position 1: Senior Chemistry major interested in **organic synthesis and/or materials science**.

Position 2: Engineering or Mathematics major with experience with **Mathematica or other graphic-related software**.

Interested applicants should submit electronically a resume and a letter of intent to Dr. Yan-Yeung Luk (yluk@syr.edu).
